Scheduled Symposia:

Acta Materialia Gold Medal Symposium:

"Recent Developments in the Processing and Properties of Ultrafine-Grained Materials"

- A Advanced Composite Materials: Technologies, Properties, Applications
- B Renewable Polymers as Multifunctional Materials: Properties, Processing, Applications
- C Functional Perovskites
- D Novel Materials in Biomedical Applications

- E Nanoscaled Si, Ge Based Materials: Fabrication, Characterization, Devices
- F Nanoceramics and Ceramic Based Nanocomposites
- G Graphene, Nanotubes and Related Materials
- H Organized Nanostructures and Nano-objects: Fabrication, Characterization and Applications

- I Computer Modelling in Nanoscience and Nanotechnology: an Atomic-scale Perspective II (CMNN2)
- J High-resolution Electrical and Chemical Characterization of Nanometer-scale Organic and Inorganic Devices
- K Highly Precise Characterization of Materials for Nano and Bio Technologies
- L Defect-induced Effects in Nanomaterials

ABSTRACT DEADLINE: MAY 28, 2012

In fairness to all potential authors, **late abstracts will not be accepted**
